

MISSION

Urban Plus is a studio for Architecture and Urban planning, established in October 2001 within Department of Architecture, Faculty of Civil Engineering and Architecture at the University of Prishtina.

After two years working for University of Prishtina, it changed its status to a private company.

During this period we remain focused on urban planning and architecture, aiming on developing interactive and all inclusive projects which deal with issues of urban planning and design.

In project development we are not concerned only about product as such, but also to the process which leads to the high standards products where the client and the public - community leaders and citizens together, are considered as part of the team work to create successful urban environments.

The mission of Urban Plus is to educate public and private stakeholders, decision makers, professionals and citizens about the value of architecture and urban design, as a strategic partner in creating sustainable urban environments based on the needs and requirements of the clients and beneficiaries.

Graduated in Faculty of Architecture in Prishtina (1986). He continued master degree studies in Faculty of Architecture in Zagreb (1988-1991).

He is finished PhD studies in Technical Faculty in Graz, Austria.

Mr. Gjinolli is also engaged as a lecturer in Faculty of Civil Engineering Architecture, Architecture Section in University of Prishtina, starting from 1988. During March 2002 – December 2003, he was a political adviser in Ministry of Environment and Spatial Planning.
